Follow Us On Social Media

1. Project Management & Engineering

- Engineers (Civil, Mechanical, Piping, Structural): Responsible for technical design, calculations, and ensuring project compliance with standards.
- Planners (Planning Engineers): Create, manage, and monitor detailed project schedules, resources, and progress.
- Supervisors/Superintendents: Oversee daily operations, manage crews, and ensure targets are met, typically reporting to construction managers.

2. Quality Control (QC)

- QC Managers/Head: Oversee all aspects of quality assurance and quality control (QA/QC), ensuring compliance with standards like ISO 9001.
- QC Inspectors (Welding/Piping): Inspect work in progress, verify materials, and test finished work against blueprints and specifications (e.g., API 510, 653, 570)

3. Health, Safety & Environment (HSE)

- HSE Managers/Head: Develop safety policies, manage HSE teams, and ensure regulatory compliance.
- HSE Officers/Inspectors: Enforce safety protocols on-site, conduct risk assessments, and investigate incidents.

4. Skilled Trades & Crafts (Mechanical & Structural)

- Fabricators: Cut, shape, and assemble metal parts to create structures, working from blueprints.
- Welders (TIG/ARC/Alloy Steel): Join metal parts using specialized equipment.
- Pipe Fitters: Install, assemble, and repair piping systems.
- Millwrights: Install, maintain, and dismantle industrial machinery [Orion Talent].

5. Skilled Trades & Crafts (Electrical & Technical)

- Electricians: Install and maintain electrical power, lighting, and control systems.
- Instrument Technicians: Calibrate and repair, electric, electronic, and pneumatic instruments.

6. Specialty Trades & Support

- Riggers: Set up equipment for lifting and moving heavy loads, often working with cranes.
- Painters & Blasters: Clean, prepare (sandblasting), and apply protective coatings to surfaces.
- Hydro Jetters: Use high-pressure water equipment for cleaning pipes and industrial equipment [Orion Talent].
- Scaffolders: Build and take apart temporary scaffolding structures for working at heights.
- Helpers: Support skilled tradesmen by providing tools, cleaning work areas, and moving materials.

How We Work

Our approach is simple, structured, and focused on delivering real results. Here's what working with us looks like:

Discover

We start by understanding your goals, challenges, and vision. Through conversations and research, we identify what success looks like for you.

Strategize

We create a clear, actionable plan tailored to your needs. Every recommendation is purposeful and aligned with measurable outcomes.

Execute

Our team puts the strategy into action with precision and transparency. You'll always know what's happening and why.

Optimize

We continuously track performance, gather insights, and refine the approach to ensure ongoing improvement and maximum impact.

Deliver & Support

Beyond delivering results, we provide ongoing support to help you adapt, grow, and stay ahead.

Company Safety Policy

Ruhan International Trading and Contracting Company. committed to strong Safety Policy that protects its staff. Its property, and the public from accidents. The Management supports and encourages all employees concerning safety on the job site. The Management encourages all employees to participate in the program and provides proper equipment, training and procedures. Employees are responsible for adopting all procedures, working safely and wherever possible, improving safety measures. Employees at every level, including Management are responsible and accountable for the company's overall safety initiatives. Complete and active participation by everyone, every day, in every job is necessary for the safety excellence, the company expects.

- Zero injury and Accident - free workplace is our goal.
- All injuries are preventable.
- Working safety is a condition of employment.
- Training employees to work safely is essential.
- Injury prevention saves money.

We believe through continuous SAFETY and loss control efforts, we can accomplish this.

Quality Policy

We, RICCO aim to achieve and sustain excellence in all our activities. Quality is the responsibility of every employee. Ethical workmanship and customer satisfaction are paramount. We shall provide our service and maintain credibility in the market for the quality of our services all the times. We are committed to total customer satisfaction and continual improvement in our performance to meet customer expectations at all times. We are further committed to develop a motivated workforce with a sense of pride in the organization which will lead us towards being the best in the industry and working in harmony with the environment.

How we Works

Understanding Client Needs

We begin by carefully listening to our clients. At Ruhan International, we analyze requirements, timelines, budget expectations, and market conditions to provide the most suitable solutions.

Strategic Planning

Our team develops a clear action plan tailored to each project. We focus on efficiency, compliance, quality standards, and risk management to ensure smooth operations.

Reliable Sourcing & Partnerships

We collaborate with trusted suppliers and global partners to ensure high-quality products/services. Strong relationships allow us to maintain competitive pricing and consistent delivery.

Quality Assurance

Quality is our priority. Every stage of our process includes inspection, verification, and performance checks to meet international standards.

Transparent Communication

We maintain open and regular communication with clients, providing updates and addressing concerns promptly to build long-term trust.

Timely Delivery

We are committed to meeting deadlines. Efficient logistics coordination ensures on-time shipment and smooth project completion.

Long-Term Relationships

Our goal is not just one transaction but lasting partnerships. We provide ongoing support and after-service assistance to ensure continued client satisfaction.

Side Work

SAFETY STATEMENT ●●●

"Safety is the first priority" and no compromise with safety, that is our company policy.

Company safety department has developed and in-house "Safety Manual" which describes the essential safety practices to be followed by every company individual.

Company has its own safety and loss prevention department, which is controlled by the Safety officer of the company. It is his direct responsibility to develop new safety standards and implementation of safety practices among the company people.

Implementation of safety practices is also the responsibility of every individual working in the company. Following the good safety practices creates safe working environments.

Delegated Safety Engineers will conduct "Safety refreshing seminar" on regular intervals. Hazard identification will be prepared, reviewed and approved prior to commencing any activity. The copy will be distributed among the craft people who are involved that particular works.

It is mandatory that all the employees working in the company must be attend a "Safety Awareness Course" which conducted by the company safety department.

Safety inspection will be conducted for every equipment and machinery and it can be put in service only after obtaining the approval
